INTRODUCTION

Statistics are a useful tool for libraries; they provide a standard of measurement between library systems, as well as comparisons from year to year. They are useful and important however, only when organized in a meaningful, relevant manner. Consequently, the Provincial Library decided, in 1982, to collect and compile statistics annually to provide libraries with the necessary feedback.

Since that time, compilations have been done for the calendar years 1982 through 1989. The compilation is a product of all the statistics contributed by libraries in the province-wide system. Lloydminster Public Library has been included since 1983. Commencing in 1986, Lloydminster is included in Lakeland Library Region statistics.

Statistics on northern libraries and on city branches of regional libraries have been included since 1984.

Statistics are collected in the following categories:
- participants, non-participants;
- collection formats and size;
- circulation;
- service points;
- hours of opening;
- service between library systems;
- special and reference services;
- personnel; and
- revenues and expenditures.

SOURCES OF INFORMATION

The following sources of information were used in compiling this report:

1. 1989 Annual Reports and audited financial statements from all regional and city library systems;
2. 1989 Annual Reports from northern libraries;
3. Statistics Canada 1989 Annual Survey of Public Libraries (serving in excess of 10,000 persons);
4. Saskatchewan Bureau of Statistics - Final 1986 Census;
5. Saskatchewan Assessment Authority - 1989 Confirmed Equalized and Taxable Assessments for all urban and rural municipalities;
6. Provincial Library Statistics for the Year 1989 from regional and city library systems; and,
7. Internal Provincial Library statistics for 1989.

Notes:

1. The regional operating revenue covers operating costs of the system. Additional costs incurred by municipalities for operating branch libraries are recorded separately. These added costs and revenues were recorded on branch library annual reports by the local library boards. These revenues include: direct financial contributions from supporting municipalities, indirect support such as rent-free facilities, direct funding through grants from organizations, indirect support from local organizations, local fund-raising projects, and donations. The method used to calculate rent value varies from branch to branch, and from region to region. Many branch reports do not show any rent value at all.
2. Where there was a discrepancy between sources of information, the data in each library's annual report and audited financial statement was the preferred source.
3. The notation (-), where it appears, designates a 'nil' report under that heading.

Notes:

Figures for regional libraries only include assessments for municipalities which participate in each regional system.

Equalized assessments are "Taxable Assessments" converted to the same base year so as to make them comparable. This conversion is necessary because various areas of the province are at different stages in the province-wide re-assessment of property values.
